

Announcement

We are pleased to announce exciting changes within our corporate community that will have an immediate and positive impact on the products and services we offer.

Business is constantly evolving. Technology is the engine that drives and supports that evolution.

Technology companies too, must evolve, become better, more focused — and we have.

VIGILANT SOLUTIONS is now operating under our Manhattan Management Inc. family of companies. VIGILANT SOLUTIONS will concentrate on the development of innovative solutions and services for the DOS and WINDOWS environment, and spearhead the development of the next generation of VIGILANT for WINDOWS. Manhattan Management's depth and VIGILANT'S expertise in these areas and this restructuring will allow the concentrated focus to develop the products and support services required for your business evolution.

ONEIR SOLUTIONS INC., our new company, is dedicated to providing the answer for businesses with more than one location. These businesses include retailers with more than one store, wholesalers with branch offices and those selling in a more virtual mode through their e-Commerce site. Server hardware, VPN devices, pre-loaded software and on-line training provide the total ONEIR solution to meet your needs and dreams. Remote business and systems management functions become part of the ONEIR customer support package.

Our ONEIR and VIGILANT teams are highly skilled, creative professionals, dedicated and determined to provide better than ever "solutions" to clients' business needs.

We invite you to view the new looks of the companies at their respective web sites; www.oneirsolutions.com and www.vigilant.com.

As always, we welcome your feedback.
