

ONEIR SOLUTIONS AND PIVOTAL PAYMENTS GIVE BUSINESS A MORE COMPLETE SOLUTION... AT NO EXTRA COST.

June 26th, 2008 – We are pleased to announce that Oneir Solutions Inc. & Pivotal Payments have entered into a partnership to seamlessly integrate the next generation of Pivotal Payments payment gateway software for debit and credit card processing with Oneir Solutions multi-channel sales software. This technically advanced solution gives businesses the opportunity to increase their competitive advantage with a more robust business solution while securing their mission critical assets.

- **Upgrade Your Solution.** Pivotal Payments will match your credit card processing rates and provide the gateway solution and software upgrade at no extra charge.
- **Increase Efficiency.** Streamline your operations by eliminating duplication of payment data entry... and its associated risk of manual keying errors.
- **Multi-Channel Processing Options.** Not just for processing retail Point-of-Sale transactions, but also for phone, mail order and unpaid Web store bankcard processing, for processing repetitive contract sales and club memberships as well as just taking bankcard payments for your outstanding customer accounts receivables... Oneir Solutions provides integrated bankcard authorization for all your multi-channel selling and processing needs while seamlessly updating your financial records.
- **Benefit From No-Delay Processing.** Use the speed and security of the Internet. No more delays from dial-up modems!

Whether you have retail, wholesale or distribution sales for products or services, Oneir Solutions now offers integrated bankcard payments no matter how many locations or where the payment is being accepted within Oneir Solutions.

About Pivotal Payments

We are an integrated Merchant Services Provider headquartered in Montreal with offices in a number of US cities. We provide payment solutions to businesses across North America and we currently manage over 25,000 merchants processing \$4 billion in annual debit and credit card volume. Pivotal's services include credit & debit card processing, electronic check conversion, merchant cash advance programs, loyalty/gift card programs as well as terminal management solutions.
