

SIZE & COLOR MATRIX SOFTWARE FEATURES

Features:

- Track inventory items by their sizes and colors
- * Set-up a standard or a custom matrix
- * Set-up only one matrix for a range of sizes and colors
- * Be used for both selling and purchasing product styles
- * Print size and color of items sold or a listing of all sizes at the Point of Sale screen
- * Print sales and purchase history for management reporting, analysis and interpretation

The Size and Color Matrix integrates fully with the Inventory Management System and the Purchase Order Software, greatly improving sales analysis.
